

Sketch Plan Example

A simple drawing is all that is required to give you an estimate.

* Please note: The drawing does not need to be to scale.

- Step 1.** Sketch a general plan.
- Step 2.** Provide all relevant benchtop measurements in millimetres (mm)
- Step 3.** Mark all exposed edges that you require to be polished with an X.
- Step 4.** Mark where splash backs are with an O.
- Step 5.** Show the position of sink/s and hot plates.
- Step 6.** Show any overhangs with dotted lines and include measurements.
